

Fig 1A

Fig 1B

FIG. 1 is a top plan view of a circular device. It features a central circular hub (45) with four radial arms (41, 42, 43, 44). A central screw or pin (70) is located at the center of the hub. The entire assembly is enclosed in a circular frame with a hatched outer ring.

Fig 2B

FIG. 1 is a cross-sectional view of a circular device 20. The device features a central hub 41 with four radial spokes 43. A central circular region 44 is defined by the spokes. The outer rim is 60. A central shaft 51 passes through the hub, with a component 52 mounted on it. A bracket 95 indicates a section A-A through the hub. Other labels include 42, 47, 53, 58, and 70.

Fig 5B

FIG. 7A is a cross-sectional view of a device 10 in a closed position. The device 10 includes a housing 12, a piston 14, a spring 16, and a valve 18. The piston 14 is biased by the spring 16 to the closed position, where it seals against the valve 18. The housing 12 includes a port 20. The device 10 is shown in a cross-sectional view along line A-A.
